CEO to Median Employee Compensation Ratio

	KBH	Selected Sectors	S&P500
Mean		721.1	238.9
Median	131	458	169

The values here represent the ratio of the CEO's total compensation to the median employee's compensation. For example, a value of 1000 indicates that the CEO's compensation is 1000 times more than their median employee's.

Average GHG Emissions per Company (in metric tons)

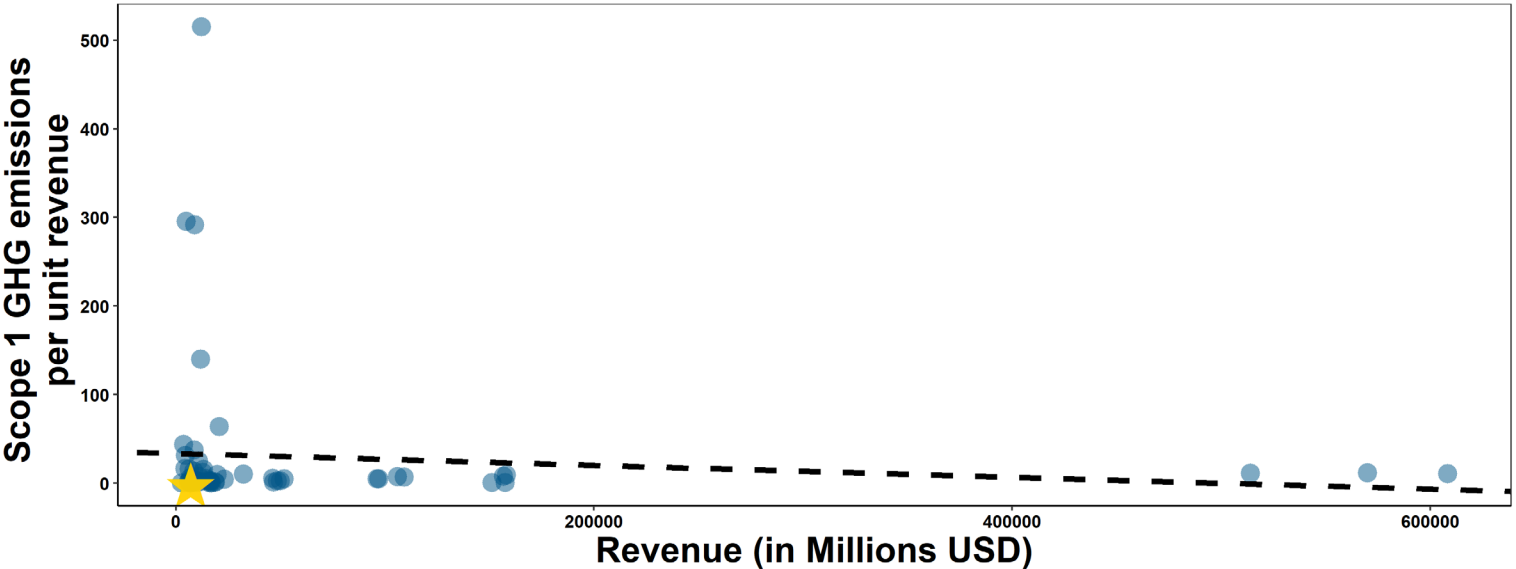

GHG Disclosure Rate

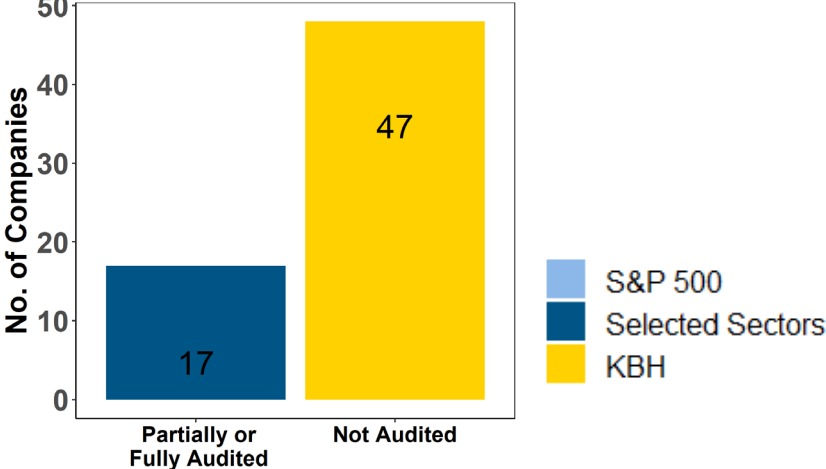

**The data for Scope 3 is derived from each company's own report of their emissions. There is frequently a lack of information regarding what categories are included in Scope 3 disclosures, and thus the completeness of a reported Scope 3 data point cannot be assured. Therefore, these comparisons may not accurately reflect the actual total Scope 3 emissions of each company's full value chain.*
